NATURE OF RELEASE

Type of Release - Natural Gas	Volume of Release - 4898 MCF	Volume Recovered - none
Source of Release: Leak in gas line at San Juan 32-8 #232A well.	Date and Hour of Occurrence 12/19/05 - 3:00pm	Date and Hour of Discovery 12/21/05 - 12:30 p.m.
Was Immediate Notice Given? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom? Denny Foust - OCD - via phone and email Mark Kelly - BLM - via email	
By Whom? Juanita Farrell	Date and Hour - 12/22/05 - 10:50 a.m.	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	
If a Watercourse was Impacted, Describe Fully.*		

Describe Cause of Problem and Remedial Action Taken.* **A natural gas release of approximately 4898 MCF was discovered at the San Juan 32-8 Unit #232A on 12/21/05, due to a leak in the 4" gas line. The San Juan 32-8 #232A, 32-8 #257A, and 32-8 #229 wells were immediately shut in to allow pipeline to blow down. The leak in the gas line was isolated and the San Juan 32-8 #232A remains shut-in until repairs are made. (The San Juan 32-8 #257A and 229A were returned to production 12/21/05)**

Describe Area Affected and Cleanup Action Taken.* **It is estimated the leak began on 12/19/05 at approximately 3:00pm and continued until discovered by ConocoPhillips lease operator Richard Pierce at 12:30PM on 12/21/05. We believe the causes that contributed to the leak were: 1) 4" line that is unpiggable; 2) water in the line froze and burst piping, in spite of methanol injection; 3) line was not buried due to solid rock and exposed to extreme cold temperatures. We are in the process of disconnecting and removing the 4" line from service and re-routing the gas through an existing 8" line. The repairs are expected to be completed today, 12/22/05.**

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
