By Whom?	Ed Hasely	Date and Hour	10/14/2003 7:30:00 A		
Was a Watercourse Reached?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	0		

If a Watercourse was Impacted, Describe Fully.*

NA

Describe Cause of Problem and Remedial Action Taken.*

The telemetry failed to signal when the steel pit tank level was high and the pit tank overflowed produced water into the bermed area.

Describe Area Affected and Cleanup Action Taken.*

All fluids were contained inside the bermed area. The free liquids in the bermed area were recovered using a vacuum truck. The impacted soils will be raked if necessary upon the area drying.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
