NATURE OF RELEASE

Type of Release	Produced water	Volume of Release	14 BBL	Volume Recovered	none
Source of Release	Leak in produced water pipeline	Date and Hour of Occurrence	6/7/2003?	Date and Hour of Discovery	6/7/2003 - 0600 hr
Was Immediate Notice Given?	Not notified until 6/9/03 <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom?	Denny Foust - OCD - 6/9/2003 @ 1200 hr - via email Mark Kelly - BLM - 6/9/2003 @ 1200 hr - via email		
By Whom?	Monica D. Olson	Date and Hour	6/9/2003 - 1200 hr		
Was a Watercourse Reached?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.			

If a Watercourse was Impacted, Describe Fully.*

Describe Cause of Problem and Remedial Action Taken.* At approximately 6:00 am Saturday 6/7/03, a water spill due to a pipeline leak was discovered. Probable cause of the spill is internal bacterial corrosion. The lines were shut in, the spill was contained, and the area was bermed to prevent migration.

Describe Area Affected and Cleanup Action Taken.* The 14 BBL produced water spill affected soils 1-3" deep, covering 180 cubic feet. The lines were shut in, the spill was contained, and the area was bermed to prevent migration. Remediation began on Monday 6/9/03, where the line was excavated, the line leak was identified and repaired, and affected soils in the area and in the run-off area were excavated and mixed with clean soils on location, with no further remediation planned.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
