NATURE OF RELEASE

Type of Release Bird in water pit.	Volume of Release NA	Volume Recovered NA
Source of Release NA	Date and Hour of Occurrence 8/3/2004 - 3:00PM	Date and Hour of Discovery 8/3/2004 - 3:00PM
Was Immediate Notice Given? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom? Denny Foust	
By Whom? Don Brooks	Date and Hour 8/3/2004 - 3:00PM	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	

If a Watercourse was Impacted, Describe Fully.*

Describe Cause of Problem and Remedial Action Taken.*

Gauger was inspecting location and noticed we had a bird under the netting of our production pit. The bird was alive but weak and had some oil on it. The gauger captured the bird and delivered to Animal Haven, who then notified Game and Fish. Game and Fish picked up the bird and delivered to San Juan Veterinary Hospital. The bird was identified as a young Red Tailed Hawk, and was cleaned and taken to Raptor Rehab in Albuquerque where it died during the night. They indicated the Hawk was very emaciated. Notification was also made to BLM and US Fish and Wildlife.

Describe Area Affected and Cleanup Action Taken.*

Upon discovery of the bird, it was identified that the pit netting (chicken wire) had been spread apart (small hole). The netting was resecured, and the local water haulers we utilize were called and instructed to tell their drivers to never alter our netting over a pit, and if they see that it has been spread, either fix it or call us to repair it.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
