NATURE OF RELEASE

Type of Release Diesel	Volume of Release 6 bbls	Volume Recovered 0 bbls
Source of Release A non-industry related private vehicle hauling a white plastic tank containing diesel	Date and Hour of Occurrence	Date and Hour of Discovery 02/21/2003 AM
Was Immediate Notice Given? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom? Denny Foust	
By Whom? Brittany D Benko	Date and Hour 02/21/2003 ~3:00 PM	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	

If a Watercourse was Impacted, Describe Fully.*

Describe Cause of Problem and Remedial Action Taken.*

A private citizen was hauling a white plastic tank, containing diesel, through the City of Aztec when the tank sprung a leak. The truck pulled off the road onto our location where 6 barrels of diesel spilled out onto the well site. The Aztec Police Department called BP to report the incident and informed us that they had a suspect and were pursuing him for prosecution – it is believed that the diesel was stolen. They also stated that wanted to require him to cleanup the diesel. As of 03/06/2003, the Aztec Police Department has been unable to arrest the individual, but will be performing a lineup as they have an eyewitness. However, they believe it is unlikely that he will be able to clean it up or pay for the cleanup. BP feels we can no longer wait and will commence with the cleanup of the diesel contaminated soil.

Describe Area Affected and Cleanup Action Taken.*

The soil will be sampled to determine if it is non-hazardous and if so will be removed to BP's Crouch Mesa Landfarm, upon NMOCD approval.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
