#### NATURE OF RELEASE

Type of Release - <b>Produced water</b>	Volume of Release - <b>12 BBL</b>	Volume Recovered -
Source of Release: <b>210 BBL condensate tank leak</b>	Date and Hour of Occurrence <b>5/27/04</b>	Date and Hour of Discovery <b>5/27/04 - 3:00 p.m.</b>
Was Immediate Notice Given? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom? <b>Denny Foust - OCD - 5/27/04 via email</b> <b>Richard Gallegos - State Land Office - 5/27/04 via email</b>	
By Whom? <b>Monica Olson</b>	Date and Hour - <b>5/27/04 - 5:00 p.m.</b>	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	

If a Watercourse was Impacted, Describe Fully.\*

Describe Cause of Problem and Remedial Action Taken.\* **A 12 BBL produced water spill was discovered on 5/27/04. The spill resulted from a leak in the 210 barrel condensate tank. The fluid on the ground is water. We know this because of the difference in the water on the bottom of the tank since the last time it was gauged. All of the water was contained on location.**

Describe Area Affected and Cleanup Action Taken.\* **No fluids left the location. The fluid was stopped from leaking. Giant will pull the rest of the condensate on the morning of 5/28/04. The tank will be cleaned and inspected and any soil staining will be remediated by raking and/or excavation. Unless findings upon remediation prove otherwise, this will be the final report.**

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
