13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-5 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Maralex Resources, Inc., became the new operator of the above-referenced well effective 10/1/01. SG Interest I, LTD, as the previous operator, drilled the well in 1983 but never completed it. The well was reported as temporarily abandoned. Please disregard SGI's sundry outlining plans to P&A the well.

As the new operator, Maralex Resources, Inc., intends to complete the well and is currently in the process of working with the Navajo Nation to obtain a right-of-way to tie the West Bisti 26-13-18 # 1 into our Ricks gathering system. We estimate the R-O-W approval from the Navajo Nation by December 2003.

We recently conducted a successful mechanical integrity test of the production casing.
