13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Two pieces equipment (1-100 BBL Tank and 1-Buried Drip)not on the original APD were added to the disposal facility site. See attached Plat #1 for changes. Operation of the facility will remain the same.

14. I hereby certify that the foregoing is true and correct.

FARMINGTON FIELD OFFICE  
BY *[Signature]*

Title 18 U.S.C. Section 1001 and Title 43 U.S.C. Section 1212, make it a crime for any person knowingly and willfully to make to any department or agency of the United States any false, fictitious or fraudulent statements or representations as to any matter within its jurisdiction.

NMOCD

Gas and water come to location in separate lines. Gas goes directly to the compressor and the water goes through the separator. Separated water goes to the water storage and then to the injection pump. Water is then pumped into the disposal well. All gas is compressed and discharged to a C.P.D. on an existing El Paso gas gathering system.
