Ben,

I stopped by the yard office and got the information you need on L. F. Miller's Pitt Well No. 1, Sec 16, T19N, R11 West. The drilling report shows the following:

Jan. 2, 1955

Plugging hole w/20 sacks cement from 1075 to 1060. Plug w/10 sacks regular cement in top of surface pipe.
