RE: Contract for plugging and restoration/remediation of seven abandoned wells and/or well sites (Woosley Oil Co.-operator) pursuant to Information for Bid (IFB) No. 90-521-25-03315

Dear Mr. Clark:

It is my pleasure to inform you that A-Plus has been awarded the contract for the above-referenced IFB. We will begin processing the contract through the state system and then send you three (3) copies for your signature which you can expect in the next couple of weeks. We will also need (i) a Performance Bond and (ii) a Labor and Materials Bond prior to notifying you to proceed to plug these wells.

Also enclosed is a "Minimum Wage Rate Poster" for posting in a prominent and easily accessible place at the site of the project, a copy of the letter received from the Department of Labor and a copy of the Notification of Award returned to the Department of Labor. Please note that A-Plus must forward one copy of each certified weekly payroll to the Labor and Industrial Division of the Department of Labor within five (5) working days after the close of each payroll period.

We will also need a Certificate of Insurance prior to signing the contract.

If you have any questions, please feel free to call me at 505/827-8156.

Sincerely,

A handwritten signature in black ink, appearing to read "Rand Carroll".

**NOTE: IF BIDS ARE NOT OPENED BY 12/31/98,
NEW RATES MAY BE REQUIRED. STARTING
12/15/98, CALL 827-6837 TEN DAYS BEFORE
BID DATE TO CHECK STATUS OF RATES.**

Dear Mr. Carroll:

In response to your request, enclosed is the Minimum Wage Rate Decision to be included in the project specification or bids documents. The enclosed MINIMUM WAGE RATE poster for this project must be delivered to the prime contractor immediately after the contract is signed. The poster is to be posted in a prominent and easily accessible place at the job site.

The enclosed "Notification of Award" and (on reverse) "list of Subcontractors" forms must be filled in (by the prime contractor) and returned to this office as soon as the project contract has been signed or (in some case) when the project cancels. The subcontractor list is especially critical since it shows us which payrolls to expect. The phone number is critical since we sometimes need to check details rather than send letters requesting corrections, clarifications, etc.

One copy of each certified and numbered weekly payroll must be sent to this office by the prime contractor and each subcontractor not later than five days following the end of the payroll period. The only exception to this five day rule will be if the contractor sends two consecutive payrolls together. Please include the wage decision number (e.g., SW 98-1234 A), contractor address and license number, and the payroll clerk's phone number on each payroll. For weeks when no work is done, we still need a numbered payroll form with the above information and the statement, "No Work Performed this Pay Period." Please send all payrolls until the contract/subcontract is done.

Also attached is a blank Request for State Minimum Wage Rates form for your future use. We appreciate your continued cooperation as we attempt to serve your needs on a timely basis.

Sincerely,

John Minks, Manager
Public Works Bureau
