Dear Mr. Kendrick:

The referenced well is a water injection well. We are submitting the following packer leakage data from a test taken on November 4, 1977.

UPPER INJECTION: 0 bbls water
900# pressure

LOWER INJECTION: 1487 bbls water
160# pressure

In our opinion, this information indicates there is no communication between zones.

Yours very truly,

J. D. Hicks
