Dear Sirs:

I spoke with Triple P about possibly plugging these wells and our conversation was less than favorable. Therefore I continued trying to get in touch with Johnny Cunningham about the wells. He called last Friday and left his fax number. I attempted to fax him the information needed to plug the Bullseye #2 and his fax would not accept the transmission. I attempted leaving messages for him to call me because the fax was not working. He returned yesterday saying he was out of town and should return by Tuesday of next week. The problem has been so difficult to finalize or even get anything started with Triple P or Johnny Cunningham, I'm still keeping in touch with Big A. Randy with Big A said he felt they would get to our wells late next week or early the following week. The plan is to plug the wells in the subject field as soon as Big A has a rig available. I will keep you informed as to our progress in moving on these wells and getting back into compliance.

Best regards, If you have anything further please call or fax me at (405) 359-6651.

David W. Ault
