RE: Temporarily Abandoned Wells  
Santa Fe Pacific #3, N-28-17N-09W  
Santa Fe Pacific 29 #3, K-29-17N-08W  
Santa Fe Pacific 29 #44, P-29-17N-09W

To Whom It May Concern:

Our records indicate that you failed to respond to Memorandum (3-91-10) dated December 27, 1991. These wells are still inactive and require P&A or TA approval under Rules 201, 202 and 203. Plans to bring these wells into compliance were to be submitted to this office by June 30, 1992 and work completed by December 31, 1992. Rule 203 requires that a notice of intent to temporarily abandon a well be submitted on a Sundry Notice (OCD Form C-103) and that a mechanical integrity test (MIT) be conducted on the casing prior to final approval. If there is a notice of intent to P&A filed and approved for these wells the work is to be completed by December 31, 1992, or the wells are to be tested and approved for TA.

A case will be docketed for hearing to show cause why referenced wells should not be plugged and abandoned in accordance with a Division approved plugging program.

Sincerely,

*Dianna K. Fairhurst*
