Re: Manvar #1 A-20-14N-7W

Dear Mr. Manzanares;

After consultation, Frank Chavez and I have decided that the only feasible way to complete the referenced well is to shut off the surface flow of water before proceeding with completion activities. You are hereby directed to initiate remedial action within one week of this date. Notify this office prior to any action, as we may wish to witness it. Failure to comply with this directive will result in legal action being initiated.

If you have any questions, please call this office.

Yours truly,
