	<input type="checkbox"/> Dispose Water

(Note: Report results of multiple completion on Well Completion or Recompletion Report and Log Form.)

13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Merrion Oil & Gas had planned to resume production of this well by June 14, 1996, however, it produces gas to a central compressor. Merrion has recently purchased the McCollum #2 and plans to tie it to the central compression facility and purchase a compressor to accommodate the larger gas volume. Production will resume upon completion of downhole work on the McCollum #2 and upgrade of central compression facilities. Estimated completion date is October 4, 1996.
