Albuquerque, NM 87102

Re: Jaco #3 D-32-20N-9W

Dear Mr. Jones:

The spud and casing report for the referenced well shows a significant deviation from the approved permit to drill.

While we do allow completion without surface pipe in this area it is allowed only if the production casing has enough cement used to circulate. We do not have an approved written request to change plans and not enough cement was used to circulate. Failure to notify us of changes in a proposed casing program is a violation of Rule 1103 and makes you subject to possible fines.

If it appears necessary, we will direct you at a later date to put more cement behind this pipe.

Sincerely,

A handwritten signature in dark ink, appearing to read "Frank T. Chavez".

Frank T. Chavez
District Supervisor

FTC/dj
