If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

We request your approval to extend the test period for the Little Blue Federal for another 90 days. We are currently testing a coal interval producing mainly water with a trace of gas. We need an extended test to determine if we can possibly dewater the coals and increase gas production. Please contact George Sharpe at (505) 327-9801 if you have any questions.
