13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

Merrion requests that the APD approval for this well, due to expire on Sep 30, 2000, be extended for one additional year. We have secured an industry partner for the drilling of this well and plan to drill during the first half of the year 2001 assuming a rig is available.

Because this is an allotted lease and takes considerable time and cost to get permitted, we do not want to re-permit if we can avoid it.

If you need further information please let me know.
