DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

It is intended to plug and abandon this well by putting cement opposite the Pictured Cliffs sand from total depth up to 2950', then setting a surface plug with marker.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
