3-378	4.7	3	378	378	378	378
-------	-----	---	-----	-----	-----	-----

1-1/2 is of the greatest importance in the work and its results. If there were any changes made in the casing, state fully, and if casing was "sidetracked" or left in the well, give its size and location. If the well has been dynamited, give date, position, and number of charges. If tags or bridges were put in the well, state their location and purpose. Give date, position, and results of running or pulling.
