O
Dear Mr. Motto:

P
I have been out of town for the past three weeks and when I returned I found the notice of your letter to the Oil Conservation Commission of Astec stating that a disconnect was being made on my Dann No. 1 Well in the undersignated Gallup Pool at Lybrook, New Mexico. Before I left I purchased a compressor and am in the process of fabricating it now to bunk the 500 pound line pressure to put it in your line. I would like also to keep the connection with your Dann No. 1 so that the amount of gas would compensate the extra expense. I trust this will be satisfactory and I will appreciate hearing from you relative to this at your earliest convenience.

Y
I want you to know that I appreciate your forbearance in this matter as we have had considerable static with pumps in that area but I think we have things flanged up now to where my operations will be more efficient in the area. Thanking you again for your kindness and consideration I am,

Sincerely,

Dear Mr. Arnold:

I trust you will give a little more time to get flanged up on our new compressor. We are fabricating it now.

Thanks
