17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

We request an additional year's shut in because this gas well is unable to produce in paying quantities under current gas market conditions. The well produces sulphur water that would have to be appropriately disposed of to meet environmental standards. Present pricing will not permit economical disposal of sulphur water.
