Well No. 3-1 is located 1.20 ft. from N line and 1.80 ft. from E line of sec. 7

3-1 (1/4 Sec. and Sec. No.) 332 (Twp.) 4 (Range) 28.00 (Meridian)  
W.B. (Field) Morrison (County or Subdivision) W.B. (State or Territory)

The elevation of the derrick floor above sea level is \_\_\_\_\_ ft. 1111

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

We propose to drill this well to an estimated depth of 680' to test the Permian formation. Approximately 300 feet of 10 3/4" casing will be run and cemented as a surface string. If commercial production is found, all string will be run and cemented.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.

Company Continental Oil Company

Address Box 66

Perkins, Colorado

By Alex B. Chapman

Title District Chief Clerk
