April 18, 1963

AKI Apache "C" Lease
Well No. 10 is located 1843 ft. from N line and 990 ft. from W line of sec. 4

NE 1/4 Sec. 4 (4 Sec. and Sec. No.) T23N (Twp.) R5W (Range) 104W (Meridian)

Ballard Pictured Cliffs (Field) Rio Arriba County (County or Subdivision) New Mexico (State or Territory)

The elevation of the derrick floor above sea level is 6729 ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

We propose to drill this well with rotary tools to approximately 2300' to test the Pictured Cliffs formation. Approximately 300' of 8 3/8" surface casing will be set and cemented to the surface. If commercial production is encountered, a string of 4 1/2" production casing will be set and cemented and the well completed.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
