Re: Caswell Silver Well #S-2  
Sec. 19, T-23-N, R-3-W.,  
Sandoval County, New Mexico

Dear Emery:

Enclosed please find two (2) copies of survey plat showing a proposed location on an Indian lease, in which the section to be drilled is a short section.

Would you kindly advise me if my location is an orthodox location, and if it is not, please let me know if it will be necessary to have a hearing requesting a non-standard location. Please note that I am staying the required 790' from the outer boundaries of the lease, but that the acreage I am dedicating will be rectangular in shape rather than square, and does not exactly coincide with legal subdivision practice.

I would appreciate your telephoning me when you have reached a decision.

Yours truly,

*Caswell Silver*
