The above mentioned well has been shut in since October 1983 due to a lack of shows while drilling. GWOP plans to drill another well in Section 26-T20N-R3W. Based on shows from this well, the 28-8 San Isidro will be completed or plugged and abandoned. The 1985 drilling program includes the drilling of the well in Section 26-T20N-R3W in the 2nd quarter of the year.
