WATER SHUT-OFF <input type="checkbox"/>	REPAIRING WELL <input type="checkbox"/>
FRACTURE TREATMENT <input type="checkbox"/>	ALTERING CASING <input type="checkbox"/>
SHOOTING OR ACIDIZING <input type="checkbox"/>	ABANDONMENT* <input type="checkbox"/>
(Other) <input type="checkbox"/>	

(NOTE: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

Champlin Petroleum Company requests approval to temporarily shut in the subject well for an indefinite time period. The current depressed oil price market makes this well uneconomic to continue to produce.

The well was shut in on 11/21/85. Production immediately prior to shut-in was 2 BOPD and 5 MCFD. In the year immediately preceeding the shut-in, the well averaged 4.6 BOPD. This qualifies the well in the "stripper" category.

Approval for a temporary shut-in would prevent premature abandonment of recoverable hydrocarbon reserves.
