13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

When the rods and pump were pulled on Oct. 11th, there was 1400' of oil above the SN, so the well was swab tested. It produced enough oil to be commercial, so the pump and rods were rerun. The engine is to be reequipped with a carburetor and a magneto, which were stolen, and a treater and a tank installed next week.

14. I hereby certify that the foregoing is true and correct
