OIL CON. DIV.  
DIST. 3

The Gary Williams Company  
1775 Sherman St., Ste. 1925  
Denver, CO 80202

Gentlemen:

After reviewing the information provided in your applications to vent casinghead gas dated September 15, 1993, we have completed our evaluations for the wells listed below to determine if it was economically feasible to capture and sell the gas or continue to vent the gas.

| <u>Lease #</u> | <u>Well Name</u>  | <u>Location</u>            |
|----------------|-------------------|----------------------------|
| NMNM 84682     | Ceja Pelon 27 #4H | Sec. 27, T. 21 N., R. 3 W. |
| NMNM 7765      | Orquidea 4 #1H    | Sec. 4, T. 20 N., R. 2 W.  |

We agree that it would not be economical to capture and sell the associated casinghead gas for the above listed wells. Your letter requesting approval to vent gas for the Ceja Pelon 27 #4H and Orquidea 4 #1H wells is approved. Your venting approval expires on September 30, 1996. A new application for permission to vent casinghead gas will have to be submitted to this office if venting is to continue.

We regret any inconvenience that this late approval may have caused. If you have any questions, please contact Robert Kent at (505) 761-8762.

Sincerely,

*L Kent Hamilton*
