13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Cobb Resources will spud the Cobb #1 well on 7-3-97. The surface casing will be 7 5/8", J-55, 26.4 #/ft, not 8 5/8" that was proposed in the APD. Cobb will drill out of the surface casing with a 6 3/4" bit, not a 7 7/8" that was proposed in the APD.

The State of NM, OCD in Aztec, NM informed Cobb that we will drill 120' of surface hole and set 120' of surface casing. This notice is to inform the BLM that Cobb will drill 120' of 11" diameter hole and set 120' of 7 5/8" casing. The casing will be cemented to surface with 52 sks(62cf) of class B cement. This volume of cement includes 50% excess.

14. I hereby certify that the foregoing is true and correct.
