(NOTE: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.) *

Benson Mineral Group, Inc. requests approval to modify our proposed plugging and abandonment procedure on this well as follows:

1. Establish an injection rate with water down casing through perforations.
2. Pump volume of cement to equal volume from bottom perforations to surface.
3. Erect PXA marker.
4. Clean up and re-seed location.

If the above procedure doesn't work, we will use the method submitted on June 28, 1982 and approved July 6, 1982.

18. I hereby certify that the foregoing is true and correct.
