RE: HOP SING #1 B-27-23N-11W  
BILLARY #1 M-31-25N-8W

I have some questions on these 2 wells: Billary #1, shows completion date as 8-31-98, completed last year and the completion sundry was signed 9-20-99? Also when Fruitland Coal was completed CIBP was set at 1922. There is not enough information, if the well is temporarily abandoned or permanently abandoned zone. I reported it as T.A. If its Zone Abandoned you need to show cmt on top used. You didn't report the S.I casing pressure on the completion report. This is required.

Hop Sing #1: completion date shows 11-25-96: Completion sundry was signed 9-20-99: CIBP was set at 3700. No other information, whether it is T.A or P.A. I also need casing pressure on this well, which is required. *- new plat too.*

On completion sundry you have \*confidential\*, but you didn't show it on the completion report, so it went out to the public. But it wouldn't be confidential anyway because the completion date shows 1-25-96.

If you have any questions, please call me at ext. #22.

Thanks,
