

Sept 14, 1990

I, Irvan Olsen of Regina N. Mexico
talked with a Mr. Jeff Wort at the
State Engineering office about using the
Henry Schmitz well #1 as a water well.
I explained that according to the well
Record 20. ~~the~~ the top of the cement is at 960 ft
and Freeport McMoran was sitting
a plug at about 2400 ft. At this time
I called to see about obtaining a permit
so we could use this as a water well.
Mr Wort said he would issue the permit

cc - Ivan Olsen - Freeport McMoran
cc - Henry Wort - Rusty oil & gas inspectors

Ivan R. Olsen → son-in-law of William E. and Pauline Schmitz (landowners)
