Dear Mr. Arnold:

Your letter of May 14 regarding name change on Jicarilla well is much appreciated.

I also appreciate your completing the quadriuplicate forms C-104's for each of the seven individual wells. Being conscious of filling space, it is obvious that my completion of the forms was to expedite some of the extra paper in condensed form. Rules are rules though and you have been of considerable help by getting with my agent, Wayne Smith, and doing the job right.

Insofar as I am concerned, you and Wayne Smith handled the problem exactly right. It will probably take me a little time to get all parties concerned familiar with the usage of the new well name and to also approve it. Yet, since it is all on the same 317 lease I don't know why original operator didn't do the same thing. The Jicarilla-Abel #6 will subsequently appear on Mr. Smith's reports and at least continue as previously without the additional report form.

I am real pleased with the manner in which this all finally got resolved.

Thanks and Best Wishes!

*George H. Fentress*
