NTL-4A Exception Application

Request extension of Flare Permit granted to Mobil Producing TX & NM, Inc. for 1 additional year from May 7, 1989 to May 7, 1990. Dugan Production recently acquired this property and is evaluating plans to connect the well for gas sales. Due to extensive R-O-W procedures which must be followed, we will be unable to connect the well by May 7, 1989.

Archeological surveys and Jicarilla Tribal evaluations of the project will require additional time.

The well is producing approximately 13 MCFD of which approx. 6 MCFD are used on lease to operate production equipment and approx. 7 MCF are being vented per day.
