ALTERING CASING ☐

ABANDONMENT ☒

7. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

(NOTE: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

Request that subject well be approved for final abandonment.

The subject wellbore located at 2060' FSL x 660' FEL was plugged and abandoned on 09 August 1991. A new well known as the Lybrook 2-R was drilled on the same well pad as a replacement well in May 1992. The new well utilizes the surface disturbance and facilities formerly used by the abandoned well.

Since the surface disturbance for the plugged well now belongs to the new well, surface rehabilitation should become part of the plugging obligation for the new well.

I hereby certify that the foregoing is true and correct
