Gasper, Wyoming

Re: Annual Deliverability Tests, San Juan Basin

Dear Mr. Charles:

Shortly after our conversation today I received annual deliverability tests on the wells we discussed except the Apache-Federal #10 from Mr. T.A. Dugan. He advised that copies were to be mailed to you today.

The Apache-Federal #10 is currently scheduled for annual test with the flow period being from January 5 to 13 and shut-in January 13 to 20.

The schedule above will be too late for an allowable in February. Therefore, please copy the blue test in your file and submit it on the white forms C-122-A to cover February.

If we can be of further service, please contact us.

Yours very truly

ARK:ks

A. R. Kendrick
Engineer, District #3
