Mr. H. P. Logan El Paso Natural Gas Company P. O. Box 997 Farmington, New Mexico

Dear Sir:

In your letter to us of May 6th of current month, you inform us that El Paso connected on April 3rd ready to run gas from our Federal No. 1 well in NE2 Sec. 17-2hN-3W, Rio Arriba County, New Mexico, completed in July, 1956.

You inform us that the New Mexico Oil and Gas Commission had not received from us forms C-110, C-10h and the well platt showing the location of this one and only well on our lease.

These forms have now been forwarded to the Aztec District office of the Commission with the extra copies which they require.

We trust that the Commission on receipt of these papers will have their file completed satisfactorily and advise you accordingly.

Kindly inform us of the date when you have started to put gas into your pipe line.

Sincerely yours, Sandre. Sandre.

New Mexico Oil Conservation Commission Aztec, New Mexico

Dear Sirs:

In the drilling of our No. 1 Federal gas well in NE NE Sec. 17 T. 24N, R. 3W, in Rio Trriba County, Mr. R. D. Clark of Dallas representing one of our partners in interest, went out there to supervise the work for us. We have been under the impression that Mr. Clark filed copies of the well-log and completion data with the Commission.

But apparently this was over-looked since he does not recall doing so and we have no record of its having been attended to.

We have the log and information as sent us by Mr. Clark but need some of your Well Record forms for the delayed submittal.

If you do not have the record, kindly send us quintuplicate forms for this purpose which we will fill out and send in promptly.

We are anxious for El Paso to start running gas from this well and wish to render apology if we have overlooked any requirements.

Jourt Landner
