17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state in pertinent detail, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

5-28-65 injected approximately 40 Bbls. of carbonate & 25 Bbls. Iso-propyl alcohol to increase permeability of water with Gullup Sand. Started injecting approximately 1000 Bbls. water per day at 450 pounds injection pressure.

We hope to increase injection per day up to 1500 Bbls. per day as soon as we get a bigger pump in our water well to get more volume.

18. I hereby certify that the foregoing is true and correct
