Gentlemen:

The referenced well was recently downhole commingled. Based on previous production and recent tests we have decided that the following percentages will be used to allocate production between the two producing intervals:

Gallup - 20% of all gas and 90% of all oil
Dakota - 80% of all gas and 10% of all oil

If you have any questions, please call this office.

Yours truly,

Frank T. Chavez
Deputy Inspector
