Well No. 118 dated 1090 ft from ~~xxx~~ and 300 from ~~xxx~~ line of sec. 8

SW/4 Section 8 24-N 6-W N.M.P.M.

Devil's Fork Gallup Rio Arriba New Mexico

The elevation of the summit from a benchmark is 6580 ft.

DETAILS OF WORK

Two examples of such literature in the area of mathematics show how well the mathematics of proposed distance education is meeting the needs of students and also how the mathematics is being used.

It is intended to mud drill a well with rotary tools thru the Gallup formation. Possible producing zones will be perforated and fractured. Est. T.D. 5667'.

Casing Program:

9 5/8" set at 300' with 210 sacks of cement circulated to surface.
4 1/2" set at 5667' with 2 stage tool set 50 - 100' below base of
Pictured Cliffs, cement 1st stage w/140 sacks to fill to 4640',
cement 2nd stage w/200 sacks to cover Ojo Olanmo.

The W/2 of Section 8 is dedicated to this well.

I understand that this plan of work must receive approval in writing from the Geological Survey before operations may be commenced.
