U. S. GEOLOGICAL SURVEY
WASHINGTON, NEW MEXICO

March 8, 1961

Apache-Federal
Well No. **11** is located **1650** ft. from **N** line and **1650** ft. from **E** line of sec. **8**
22 24 26 Section 8 **24N** **2E** **26W**
(1/4 Sec. and Sec. No.) (Twp.) (Range) (Meridian)
Doña Ana **Doña Ana** **New Mexico**
(Field) (County or Subdivision) (State or Territory)

The elevation of the land surface above sea level is **6507** ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

It is proposed to drill a development well to test the Pictured Cliffs, Gallup and Dakota to an approximate depth of 5000'. Approximately 200' of 8-2/3" surface casing will be set and cemented to the top. If well is productive, 4 1/2" casing will be set through all possible pays and cemented from total depth through Gallup and from 100' below Pictured Cliffs to 100' above. All possible producing zones will be adequately tested by 2-logs, DST's, etc.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
