

BEFORE THE OIL CONSERVATION COMMISSION
OF THE STATE OF NEW MEXICO

IN THE MATTER OF THE HEARING
CALLED BY THE OIL CONSERVATION
COMMISSION OF NEW MEXICO FOR
THE PURPOSE OF CONSIDERING:

CASE NO. 5463
Order No. R-5013

APPLICATION OF J. GREGORY MERRION
FOR DOWNHOLE COMMINGLING, RIO
ARRIBA COUNTY, NEW MEXICO.

ORDER OF THE COMMISSION

BY THE COMMISSION:

This cause came on for hearing at 9 a.m. on April 30, 1975, at Santa Fe, New Mexico, before Examiner Richard L. Stamets.

NOW, on this 6th day of May, 1975, the Commission, a quorum being present, having considered the testimony, the record, and the recommendations of the Examiner, and being fully advised in the premises,

FINDS:

(1) That due public notice having been given as required by law, the Commission has jurisdiction of this cause and the subject matter thereof.

(2) That the applicant, J. Gregory Merrion, is the owner and operator of the Edna Well No. 4, located in Unit H of Section 7, Township 24 North, Range 6 West, NMPM, Rio Arriba County, New Mexico.

(3) That the applicant seeks authority to commingle undesignated Mesaverde and Devils Fork-Gallup production within the wellbore of the above-described well.

(4) That from the undesignated Mesaverde zone, the subject well is capable of low rates of production only.

(5) That from the Devils Fork-Gallup zone, the subject well is capable of low marginal production only.

(6) That the proposed commingling may result in the recovery of additional hydrocarbons from each of the subject pools, thereby preventing waste, and will not violate correlative rights.

(7) That the reservoir characteristics of each of the subject zones are such that underground waste would not be caused by the proposed commingling provided that the well is not shut-in for an extended period.

(8) That to afford the Commission the opportunity to assess the potential for waste and to expeditiously order appropriate remedial action, the operator should notify the Aztec district office of the Commission any time the subject well is shut-in for 7 consecutive days.

(9) That in order to allocate the commingled production to each of the commingled zones in the subject well, 100 percent of the commingled gas production should be allocated to the undesignated Mesaverde zone, and 100 percent of the commingled oil production to the Devils Fork-Gallup zone.

IT IS THEREFORE ORDERED:

(1) That the applicant, J. Gregory Merrion, is hereby authorized to commingle undesignated Mesaverde and Devils Fork-Gallup production within the wellbore of the Edna Well No. 4, located in Unit H of Section 7, Township 24 North, Range 6 West, NMPM, Rio Arriba County, New Mexico.

(2) That 100 percent of the commingled gas production shall be allocated to the undesignated Mesaverde zone and 100 percent of the commingled oil production shall be allocated to the Devils Fork-Gallup zone.

(3) That the operator of the subject well shall immediately notify the Commission's Aztec district office any time the well has been shut-in for 7 consecutive days and shall concurrently present, to the Commission, a plan for remedial action.

(4) That jurisdiction of this cause is retained for the entry of such further orders as the Commission may deem necessary.

DONE at Santa Fe, New Mexico, on the day and year herein-above designated.
