Re: E J Hooten #1 D-12-24N-1W

Gentlemen:

As you may be aware, a domestic water well near the referenced gas well has become polluted with gas and is unusable. A review of well records in the area indicates that this well very likely has a casing leak and is the source of the gas.

Please schedule and conduct a bradenhead test as soon as possible. Notify this office at least 24 hours prior to test so we may provide a witness.

If you have any questions, you may call me at 505-334-6178.

Yours truly,

A handwritten signature in cursive script, appearing to read "Charles Gholson".

Charles Gholson
Deputy Oil & Gas Inspector
