(See instructions for completing this form on the reverse side)

No. 08-125

No. 08-125

Figure 1. A schematic diagram of the experimental design. The subjects were divided into two groups: the control group and the experimental group. The control group received a standard training program, while the experimental group received a modified training program. The results of the training program were compared between the two groups.

$\frac{d}{dt} \left( \frac{\partial L}{\partial \dot{x}} \right) = \frac{\partial L}{\partial x}$

$\frac{1}{2} \left( \frac{1}{2} \right) = \frac{1}{4}$

U.S. 1
