100-2-7 QUARTZITE 90

1. The first part of the document is a letter from the author to the editor, dated 1954. The letter discusses the author's interest in the subject of the journal and the importance of the work being presented. The author mentions that the work is a continuation of previous research and that it is hoped that the findings will be of interest to the readers of the journal.

P.B.T.D. 3443. Sand water 12cc. open hole 3462-3495 w/33,600 gal. water and 40,000 sand. B.D.P. 1900#, I.R. 45.3 B.P.M.

It is of the greatest importance to have a complete history of the well. Please state in detail the dates of redrilling, together with the reasons for the work and its results. If there were any changes made in the casing, state fully, and if any casing was "sidetracked" or left in the well, give its size and location. If the well has been dynamited, give date, size, position, and number of shots. If plugs or bridges were put in to test for water, state kind of material used, position, and results of pumping or bailing.
