Dear Sir:

This letter is to request permission to produce the Amerada J. Apache "A" #4 - Pictured Cliff Zone for packer leakage test. At the present this well is closed due to over production. If permission is granted will you please notify El Paso Natural Gas Company in Farmington, and they will open the well when necessary.

We have applied for a larger allowable on this well, as per letter dated August 11, 1958, because the test reported was not in line with actual production.

Above well is located in Unit P, Section 26, T-25-N, Range 5 West, Rio Arriba County, New Mexico

If further information is desired please advise.

Yours very truly,

D. F. Furse
