Dear Sir:

We have a notice of intention to drill, dated October 2, 1957, *for your well* #30-H located 1450 feet from the South line and 1150 feet from the East line of Section 30, T. 25N, R. 1W, Rio Arriba County.

We have another notice for a well by the same number located 1962 feet from the South line and 1916 feet from the East line of the same section. This later notice is dated February 27, 1958.

The Federal Form 9-330 indicates a well at the later location was spud on October 20, 1957.

Which location was drilled?

What are your intentions for the other location?

We anticipate an early reply.

Yours very truly,

ARK/mp
