Durango, Colorado
August 18, 1960

New Mexico Oil & Gas Conservation Commission
Box 697
Aztec, New Mexico

Gentlemen:

Attached are pressure charts for the packer-leakage test performed on Jicarilla 28 Lease, Well 28 No. 1. The completed Northwest New Mexico Packer Leakage Test form was submitted in triplicate on August 16, 1960. Through an oversight, the pressure charts were not submitted.

Very truly yours,

H. D. Haley
District Superintendent
Durango District
Production Department
