*Re: Kay Kimball #1-29 Jicarilla
D-29-25N-5W, Rio Arriba County*

Gentlemen:

This well was connected to El Paso's pipeline system on June 26, 1961 and has never been assigned an allowable because an initial deliverability test has not been filed.

It will, therefore, be necessary that we issue a shut-in notice on this well unless an initial deliverability test is filed prior to February 15, 1962.

Yours very truly

*Emery C. Arnold
Supervisor, District #3*
